Multi-faceted Vedic Hinduism  
(*Sanaatana Dharma*)**

# What does *Sanaatana Dharma* mean?

- ❖ *Sanaatana* is Perennial and *Dharma* is universal principles and laws that govern life
- ❖ Refers to the whole process and values of life starting from inception of an idea, activity, results and beyond
- ❖ Provides a vision and a way for practice in life, both at an individual and collective level.

# What are the Objectives of Life (Purushaartha)?

1. *Dharma:*                    *Laws of Life, Nature and Universe*
2. *Artha:*                        *Wealth, Possession and Power*
3. *Kama:*                        *Desire and Ambition*
4. *Moksha:*                    *State of contentment and tranquility*

*The above order is very important and should not be interchanged.*

# What are the major Stages in Life (*Ashrama*)

1. *Bramhacharya*: deals with the younger years of a student's life (education).
2. *Grihasta*: deals with married life (social responsibility).
3. *Vanaprastha*: deals with later years of life (contemplation).
4. *Sanyaasa*: deals with the senior years of life (renunciation).

The above order is general guideline but it is possible to become a *Sanyaasin* directly from any stage

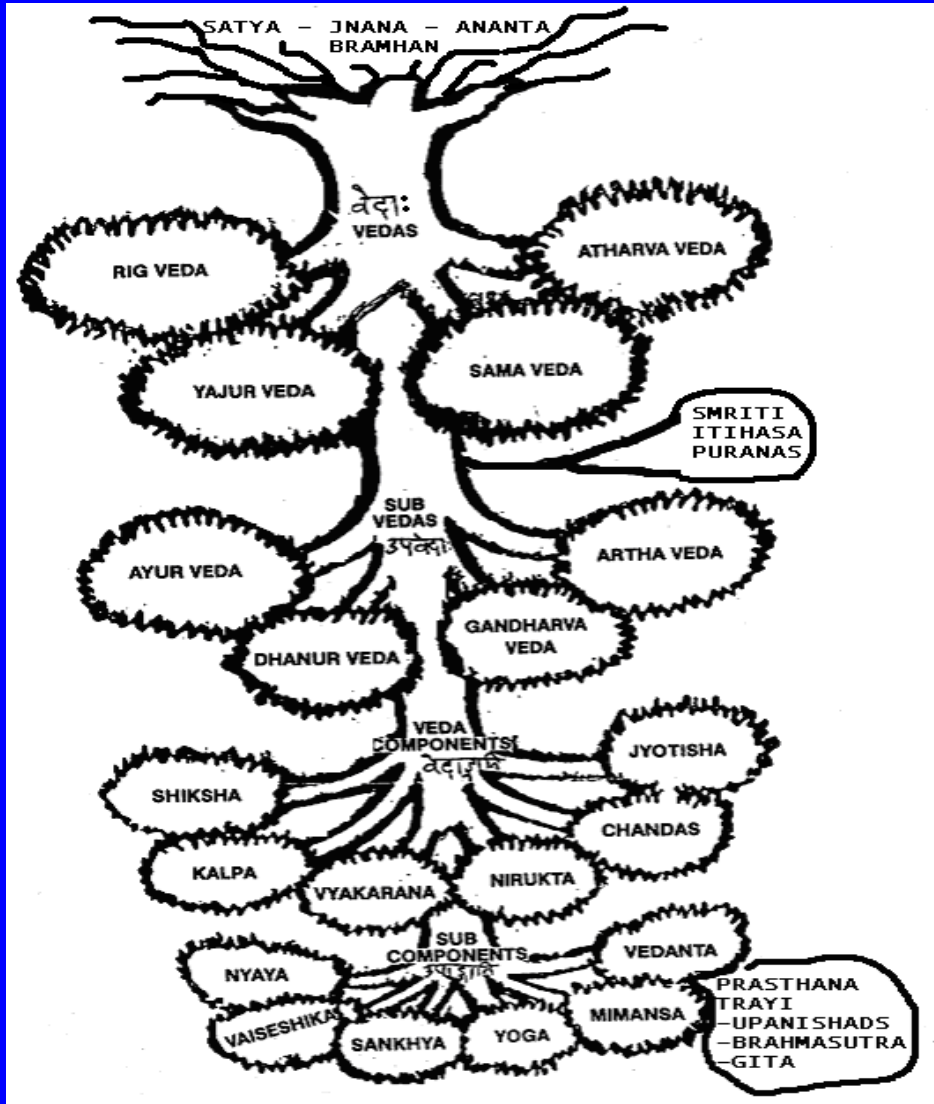

# How do India's *Rishis* define what goal of life is?

- “It is the view of the *Rishis* (enlightened beings) of *Bharata* that spiritual enlightenment is the ultimate goal of life. That is attainment of ultimate joy (*Ananda*). That is liberation (*Mukti*). Spiritual knowledge (*Jnana*) is that by which one merges into the light of *Atman* (One Source) as a river merges into the ocean.
- The *Rishis* or *jnanis* having attained this ultimate goal have brought forth the knowledge in science and arts (*Vijnana*) keeping in line with their roots in spiritual knowledge (*Jnana*) because *Vijnana* is the manifestation of *Jnana*.
- It is for this reason an in-depth sincere study of knowledge in science and arts at any stage of manifestation will lead to attainment of the ultimate goal of spiritual knowledge (*Jnana*)”

- The production of various seed-sounds in relation to various *chakras* starting from *Muladhara* at the base are shown.
- In the *Vedic* tradition, the human spinal cord is represented as the musical instrument (*Veena*).

The 24 frets of the instrument are analogous to the 24 cartilages in the spinal cord. The number 24 also relates to the 24 syllables in the *Vedic Gayatri Mantra*.

FIG. 1. Photograph of the Indian drums *Tabala* and *Mridanga* (left to right) which possess an approximately harmonic set of overtones.

FIG. 3. Nodal lines (shown dotted) of the ideal composite membrane corresponding to the first nine modes of vibration. Cross-hatched portion shows the loaded central region. The modes and their frequency ratios with respect to the fundamental are indicated below each. The various modes are arranged in different rows according to the harmonic to which they closely correspond.

# Sound carries spiritual vibrations

- **Shankha (Conch Shell) produces an unusually pure tone**
  - Reflects the sound of OM
  - Used in Hindu rituals
  
- **Sound interacts with the flame to bring about various shapes**
  - A particular tone breaks the flame into seven tongues (Tyndall effect)

# Vedic Triadic Approach to Seek Spiritual Knowledge

Three essential components for making an effort to acquire any knowledge, particularly spiritual knowledge are:

- The *Sadguru* refers to the guiding energy in the form of mother, father, acharya, spiritual mentor
- *Shastras* refers to the body of knowledge (Vedic literature)
- *Anubhava* means the experience of the seeker

Eventually, the seeker should advance towards spiritual enlightenment.
